• Windows

EXPERIENCE

WIPRO | Project Engineer
Oct 2018 - April 2022 | Bengaluru, India
- Worked on Salesforce Commerce Cloud b2c, where I created cartridge, added product and catalog, created system object attributes, assigned price book, worked on controllers and did number of customizations.
- Successfully gathered requirements, designed and implemented websites using Salesforce Commerce Cloud b2c.
- Successfully implemented Salesforce Commerce Cloud POC's such as Place Order, Store Information etc. using OCAPI calls.

DELOITTE | Consultant
April 2022 - Present | Bengaluru, India

- Worked on Headless commerce, business manager, hooks, forms, system objects and custom objects.
- worked on number of implementations such as account registration, add product to cart, add product to wishlist, place order, add payment method etc. using SCAPI.
- worked on Salesforce Commerce cloud b2b where I configured the store and created the user, assigned permission sets, added the product, categories, price book and buyer group and created the custom pages as per the requirements.
